Mr. Gerardo Rios
Chief – Permits Office
U. S. EPA, Region IX
75 Hawthorne Street, Air 3
San Francisco, CA 94105

Dear Mr. Rios:

Deluxe Laboratories, Inc. (I.D. 009668) has proposed to revise their Title V permit by adding a regenerative thermal oxidizer and modifying eight film cleaning machines and two wet gate printing machines to vent to the new oxidizer. This is a motion picture film processing laboratory (SIC 7819) located at 1377 North Serrano Avenue, Hollywood, CA 90027. This proposed permit revision under Application Number 481186 is considered as a “de minimis significant permit revision” to their Title V permit. Attached for your review are the permit evaluation and draft permit for the proposed permit revision. With your receipt of the proposed Title V permit revision today, we will note that the EPA 45-day review period will begin on October 14th.

If you have any questions or need additional information regarding the proposed permit revision, please call Stacey Ebiner at (909) 396-2504.

Very truly yours,

A handwritten signature in black ink, appearing to read 'Fred Lettice', is positioned above the typed name.
